would only cost you approx \$2.64 to produce. Then you have the blank t-shirt, which may be \$2-3 wholesale. That's a total approximate cost of \$5 per shirt to produce. If you sold this shirt for \$20, that would yield about \$15 in profits per shirts. You can make about 7 shirts an hour, which means \$15 x 7 shirts = \$105 profit per hour in this example!
